

Neighborhood Advisory

East Rockville Sanitary Sewer Improvements – Survey Phase

- Project Description:** In support of a potential sanitary sewer improvement project, *JBA Engineering, Inc.* will perform a field survey in East Rockville to identify features including the existing roads, trees, utilities and topography. Identifying these features will help determine the next steps for improving the sanitary sewer. Survey work will begin the week of Oct. 14, weather permitting. The work will include surveyors with equipment traversing the area delineated on the back of this advisory. Trees may be marked with temporary ribbon to assist in identification and inventory. They do not indicate tree removal.
- Purpose:** A portion of the Rock Creek Sewershed was recommended for improvements due to limited capacity in the existing sewer. This survey will assist the City's Department of Public Works in determining the improvements necessary to ensure adequate sewer capacity in the area.
- Location:** Beginning at the intersection of East Middle Lane and Monroe Street and ending at Taylor Avenue. Additional streets affected by this survey will be Hungerford Drive, Park Road, North Stonestreet Avenue, Grandin Avenue, Highland Avenue, South Horners Lane, Seth Place and Charles Street.
- Timeline:** Survey work is anticipated to begin the week of Oct. 14 and take approximately three weeks.
- Cost:** The survey is funded by a proposed development in Town Center. No City funds will be expended on the sanitary sewer survey. Future design and construction costs may be shared between the City and developers depending on the results of the survey.
- Contact:** Jim Woods, Rockville Project Manager, at 240-314-8521 or jwoods@rockvillemd.gov
