

Designated 2004

The Fred and Mary Nellinger House is located in the Rockville Park subdivision in East Rockville. The house was built soon after the subdivision was recorded in 1890. The property consists of three lots, providing the house with generous sidelots and rear garden. This middle-class home has elements of high-style Victorian residential architecture, although the house itself is small. The property is named for its longterm owners from 1919-1972.
