

Children

A message for parents . . . We require, for most programs, that children are the required age as of the date of the first class. All age requirements are set to benefit the child and allow for more consistent for the program instruction. In some instances, the requirements have been set for the child's safety. If your child does not meet the age requirements by the start of class, please register by fax, mail-in or walk-in. Note: Classes with low enrollment will be canceled 7-10 days prior to first class. Register early to avoid cancellations.
