I hereby certify that I have the authority to make the foregoing application, that the application is correct, and that the construction shall conform to the Rockville City Code, and all other codes and regulations or private building restrictions, if any, which may be imposed on the above property by deed. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction. I have read and understand the Permit Conditions available from the Inspection Services Division.

**FEES ARE NON-REFUNDABLE**

*Pursuant to City of Rockville Code, Chapter 5, Article VII, Division 3, Section 5-121*

(b) Any permit required may be issued to any person to do electrical work in a single-family dwelling used exclusively for living purposes, including the usual accessory buildings and quarters in connection with such building, provided the person is the bona fide owner of such dwelling and that the same will be occupied by the owner and that the owner shall personally purchase all material and perform all labor in connection therewith; however, the administrative authority may require the homeowner to show that he is qualified to perform such work in a capable manner so as not to endanger the life and property of himself, persons in the neighborhood or property belonging to public utility suppliers. This subsection does not apply to work involving heavy-up or replacement of service equipment, or to any wiring associated with swimming pool installations.

*Pursuant to City of Rockville Code, Chapter 5, Article VII, Division 3, Section 5-133*

Section 90.2 of the NEC is amended by adding the following:

**(D) Homeowners.**

Homeowner must take and pass an exam administered by the Inspection Services Division prior to allowing a homeowner to obtain an electrical permit for doing electrical wiring at their primary residence. This exam will be valid for two years allowing the homeowner to apply for additional permits in that time frame for their primary residence.

Homeowner obtained electrical permits will allow electrical wiring at their primary residence, with the exclusion of the following work:

- Swimming pools, saunas or hot tubs
- Service equipment installation such as heavy-ups, panel replacements, sub-panels
- Replacement of SEC cable.
- Overhead service mast replacements.
