This section does not apply to underground parking facilities.

b. Building restriction lines and build-to lines established.

1. Building restriction lines along Hungerford Drive.

- (a) East side. Beginning for the same at a point on the northerly line of A Street 85 feet easterly from the point of intersection of the centerline of Hungerford Drive with the northerly line of A Street and running thence northerly and parallel to the centerline of Hungerford Drive and 85 feet therefrom to the northerly line of Gude Drive.
- (b) West side. Beginning for the same at a point on the westerly line of North Washington Street 85 feet westerly from the point of intersection of the centerline of Hungerford Drive with the westerly line of North Washington Street and running thence northerly and parallel to the centerline of Hungerford Drive and 85 feet therefrom to the southerly line of College Parkway; thence still northerly and parallel with the centerline of Frederick Road and 95 feet westerly therefrom to the northerly line of Gude Drive.

build-to lines of Rockville Pike would be as shown in Exhibit A and are further illustrated in the graphic described in Exhibit B below:

Exhibit A		
Distance of sign From Rockville Pike <u>or Hungerford Drive</u>		Allowable height of sign
_____	x 20' =

_____	x 100' =

SECTION 5. Amend Article 18, "Signs," as follows:

25.18.01 – Legislative Findings; Purposes

- a. *Legislative Findings* – The Mayor and Council finds that signs provide an important medium through which individuals and entities may convey a variety of commercial and noncommercial messages. However, left completely unregulated, signs can become a threat to public safety as a hazard to property, persons, and the motoring public, and a detriment to property values and the overall public welfare as a an unattractive nuisance.
- b. *Purposes* – In addition to the purposes of this Chapter established in Section 25.01.02, the purposes of this Article are:
1. To enable the public to locate goods, services, facilities, and geographic areas without difficulty, danger, or confusion;
 2. To reduce traffic and pedestrian hazards and prevent interference with the effectiveness of traffic regulation;
 3. To promote the compatibility of signs with the surrounding land uses;
 4. To protect the public investment in the roadways in the City;
 5. To promote and preserve the economic well-being and vitality of the community;
 6. To enhance and improve the environment and aesthetics of the City and to protect property values by preventing visual clutter and blight;
 7. To preserve the residential character of the City's residential neighborhoods; and
 8. To provide effective opportunities for the expression of commercial and noncommercial communication while protecting the public and the community against adverse effects from the unrestricted proliferation of signs.

25.18.02 – Severability

- a. Without diminishing or limiting in any way the declaration of severability in Section 25.01.08 it is the express intent of this Section that if any provision (including any section, sentence, clause, or phrase) of this Article 18 or any other provision of this Chapter pertaining to signs, including but not limited to provisions pertaining to sign permits, is declared by a court of competent jurisdiction to be unconstitutional and void, such declaration of unconstitutionality does not affect any other provision of this Article 18 or other provision of this Chapter, including, but not limited to, the prohibition of certain signs, and the requirements pertaining to the size, height, location, numbers, illumination, maintenance, construction, and removal of signs.

- b. In particular, and without limitation, in the event any provision of this Article 18 or other provision of this Chapter is declared invalid as applied to noncommercial signs, this Article 18 or any surviving portions thereof, remain in full force and effect as applied to commercial signs.
- c. Without diminishing or limiting in any way the foregoing declaration of severability, it is the express intent of this Section, 25.18.02, that if any provision (including any section, sentence, clause, or phrase) of this Article 18 or any other provision of this Chapter pertaining to signs is declared by a court of competent jurisdiction to be unconstitutional and void, such declaration of unconstitutionality does not affect any other provision of this Article 18 or other provision of this Chapter even if such severability would result in a situation where there would be less speech, whether by subjecting previously exempt signs to the provision of this Chapter or otherwise.

~~25.18.03 - Special Application Requirements for the Sign Review Board Sign Variances~~

~~In addition to the general provisions pertaining to the Sign Review Board found in 25.04.05 and general provisions for applications in Article 5, applications authorized in this Article 18 must:~~

- ~~1. Be submitted in writing to the Sign Review Board at least ten (10) calendar days prior to the meeting at which it is to be considered;~~

- a. This Section allows variances from the standards of this Article only when, because of special circumstances applicable to the property, including location, shape, size, surroundings, topography, or other conditions, the strict application of this Article denies the property owner privileges enjoyed by other property owners in the vicinity and under identical zoning districts.
- b. Intent. The intent of this Section is to allow relief, in certain situations, from the strict application of the regulations identified within this Article only by reason of:

 - 2. The exceptional topographic conditions or other extraordinary situation of the structure or parcel.
- c. Application for Sign Variances. An application for a Sign Variance shall be reviewed by the Chief of Zoning and governed only by the development standards identified in this Article.

 - 1. Strict compliance would preclude an effective design solution improving sign functionality, operational efficiency or appearance;
 - 2. Strict compliance would preclude an effective design solution fulfilling the basic intent of the applicable regulations;
 - 3. The variance will not constitute a grant of special privilege inconsistent with limitations imposed on similarly zoned properties or inconsistent with the purposes of this Article;
and

4. The proposed sign is architecturally compatible with the major structures on the subject site, and adjacent sites and is compatible with the character of the established neighborhood and general environment.

e. Implementation Period. Any sign or signs must be installed within six (6) months of the date of the approval of the sign variance.
